As US attorneys for the above applications, we have an obligation to protect your rights in the application.

However, we have been advised that financial considerations make it likely that these applications will be abandoned.

In order to relieve us of our obligation, please confirm that the applications are to be abandoned or send us instructions of the way you intend to continue them.

As application 10/517,497 (our ref: U 015529-5) has a pending Action on which monthly graduated extension fees are due for a Response by December (25) 26, 2007, and we must obtain approval of the Patent Office of withdrawal from our obligation to you thirty days in advance thereof, we must apply for such withdrawal, if necessary, as soon as possible, because the Patent Office is slow to act on such requests. Therefore, if we do not have your confirmation or instructions by October 25, 2007, we will be forced to request our withdrawal from the applications.

Very truly yours,

Clifford J. Mass
